

PRICING GUIDE

Logan Labs, 620 North Main Street, Lakeview, OH 43331
937-842-6100 | www.loganlabs.com

Turnaround Time

All samples will be completed in 3-5 business days. Reports will be emailed to you as soon as analysis is completed. If you haven't received your results within a week, contact the lab.

Sample Storage

Samples are retained for 4 weeks. All reports are the property of the client. Reports will not be sent to any other individual without permission from the client.

Confidentiality

All reports are the property of the client. Reports will not be sent to any other individual without permission from the client.

Invoicing/Terms

Invoices are generated daily and a monthly statement is generated at the end of each month. We accept checks (within the U.S.), money orders, ACH payments, and most major credit cards.

Add-Ons

There will be a handling fee added to all add on tests if soil has already been completed. Call for pricing.

Prices are subject to change.

ALL PRICES ARE PER SAMPLE.

SOIL TEST PACKAGES

Standard Test \$27

This test is great for analyzing the soil in your yard, flower beds, home garden, or general crop fields. The Standard Test package includes pH, organic matter, base saturation, total exchange capacity, Mehlich III extractable sulfur, phosphorous, calcium, magnesium, potassium, sodium, boron, iron, manganese, copper, zinc, aluminum (*ammonium acetate method available).

Standard with Extras \$32

This includes the Standard Soil Test plus Cobalt, Molybdenum, Selenium, Silicon, Conductivity, and ENR.

Saturated Paste Test \$33

This test should be taken for soilless media following the Complete Soil Package test. It is also helpful for mid-season monitoring. The saturated paste package includes pH, soluble salts, chloride, bicarbonate, water soluble phosphorous, calcium, magnesium, potassium, sodium, boron, iron, copper, zinc, aluminum, sulfur, and manganese.

Complete Soil Package \$60

Take this test if you are growing food for resale, cannabis, hemp, soilless media, or are trying to pinpoint a problem. Your analysis will provide you with the The Standard Soil Analysis, Saturated Paste Analysis, and available nitrate and ammonium.

Complete Soil Package with Extras \$65

This includes the Complete Soil Package plus Cobalt, Molybdenum, Selenium, Silicon, Conductivity, and ENR.

WATER TEST PACKAGES

Irrigation Water Monitoring \$38

The irrigation water monitoring package includes: pH, soluble salts, chloride, bicarbonate, carbonate, alkalinity, hardness, SAR, calcium, magnesium, potassium, sodium, iron, boron and sulfate.

Irrigation Water Suitability \$46

The irrigation water suitability package includes: irrigation water monitoring package, plus nitrate, adjusted SAR, pHc, Phosphorus.

PLANT TISSUE PACKAGES

Complete Plant Tissue Package \$44

This test is helpful for monitoring deficiencies during growing season. The plant tissue package includes: nitrogen, phosphorous, potassium, calcium, magnesium, sulfur, boron, iron, sodium, manganese, copper, and zinc.

ADDITIONAL TESTING

(STANDARD SOIL TEST REQUIRED)

For all additional tests offered contact the lab.

Ammonium Acetate.....	\$32
Nitrate & Ammonium.....	\$17
Silicon (Si).....	\$10

Physical (Particle Size Analysis)

% Sand, % silt, % clay	\$33
% Sand, % silt, % clay, and % sand fractions	\$44
